MOVING & LIFTING INDUSTRIES SINCE 1968

WE BELIEVE

IF YOU CAN MAKE IT, WE CAN HANDLE IT.

- ▲ As an ISO certified material handling equipment manufacturer, Armatic Engineering Private Limited has a lineup of approximately 150 custom built products, the largest in India, that allows us to meet the needs of the manufacturing industry in every field.
- ▲ During our history of more than 50 years since our company was founded in 1968, Armatic Engineering Private Limited has built its reputation and success by critically examining customer needs, developing dependable technologies, wide-ranging innovation in design, maintaining a reasonable cost structure and successfully keeping up to our commitments. The fundamental business philosophy of our company is gratitude and in order to give shape to this philosophy, we will continue to produce dependable products for our customers as we look forward to the next 100 years.
- ▲ Our range of products include Coil Handling Equipment, Transfer Cars, Slab Tongs, Billet Tongs, Ingot Tongs, Bloom Tongs, Up - Down Enders (Tilters), Rotators, Electro - Hydraulic Cactus & Rope Grabs, Sheet Pack Lifters, Sheet Plate Lifters, Spreader Beams, Truck Mounted Hydraulic Cranes, among others. We have designed equipment up to SWL 200 Tons and built upto SWL 185 Tons.
- ▲ We have exported our products to Australia, Bangladesh, Columbia, Dubai, Egypt, Ethiopia, Georgia, Indonesia, Italy, Kenya, Malaysia, Mexico, Nepal, Nigeria, Oman, Pakistan, Rwanda, Saudi Arabia, Turkey, Vietnam.

TEAMWORK AS AN ARTFORM.

We have an experienced and passionate group of designers, developers and project managers. Every client we work with becomes a part of the team. Together we face the challenges and design the ultimate product.

TRANSPARENT COMMUNICATION

We keep the lines of communication wide open and reciprocal. You will be informed and empowered from inception to project review and beyond. We think that's key to a happy, productive relationship and to the best results.

A THRIVING PARTNER ECOSYSTEM, BUILT TO EXPAND

Every project has its own unique goals and vision. Whatever your project demands, our extended network of strategists, creatives and technology specialists is always eager to pitch in.

One team, many talents.

MANUFACTURING

- C-hooks – with rotation, container loading etc.
- Vertical Coil Tongs – single and double rim
- Coil Lifters – rack and pinion & parallelogram
- Convector Plate Lifters
- Transfer Cars – electrical and battery operated
- Slab, Ingot, Billet, Bloom Tongs
- Up-Down Enders (Tilters) – mechanical & electro - hydraulic
- Electro-Hydraulic Cactus and rope Grabs
- Sheet Pack & Plate Lifters
- Spreader Beams
- Truck mounted hydraulic cranes
- Stack Turnover device - Hydraulic
- Roll Lifting Tong

SEGMENTS

- Flat products
- Long Products
- Coils
- Ingots / Billets
- Scrap
- Steel, Copper, Aluminum, Stainless steel
- Wire Rod

INSTALLATION & COMMISSIONING

No one understands our products quite like our dedicated personnel. Whatever the product, location or application, Armatic's experienced and highly-trained specialists will handle the installation with professionalism, adeptness and in accordance with local safety requirements.

BENEFITS

Eliminate the challenge of coordinating multiple on-site teams when installing new equipment. Armatic project managers can handle the installation and commissioning of equipment from start to finish. From the early project planning stage, coordinating needed tools and manpower, executing the project on-site to conducting follow up meetings with your staff, our team manages each step of the process to ensure that installations are on time and under budget. Project meetings throughout the process guarantee that everyone is on the same page in terms of safety, costs and installation times.

All newly installed equipment is run through rigorous on-site testing to ensure that system equipment hardware and software is working as it should. Predetermined operation sequences are tested and all on-site adjustments are configured to ensure your equipment is ready for your most demanding applications.

Once equipment is installed and running, we remain available for you.

CONSULTANCY

We combine the best of design thinking, user research, strategy, and cutting-edge technology to deliver innovative solutions for better results.

With extensive experience across industries, technologies, and regions, we bring a fresh perspective to your biggest challenges. Our design process, advanced software practices and digital thought leadership have been honed after 50 years. The end result? Sophisticated execution and an eye toward perfection.

Powered by our design-led innovation process we deliver end-to-end experiences to help businesses grow.

RECONDITIONING & REFURBISHING

We offer complete factory reconditioning services. The factory-trained experts at our facility follow strict ISO guidelines and use genuine parts to deliver fully-inspected, like-new equipment.

Our technicians conduct an extensive reconditioning process:

- Units are completely torn down and inspected.
- Major sub-assemblies are verified for structural integrity.
- Report is sent to customer for parts to be reconditioned.
- Our trained personnel perform the necessary tasks.

45MT C-hook

13MT Container Loading C-hook

35MT C-hook with Built In Stand

15MT C-hook with rotation

20MT C-hook for Turnstile

0.5MT C-hook for Slits

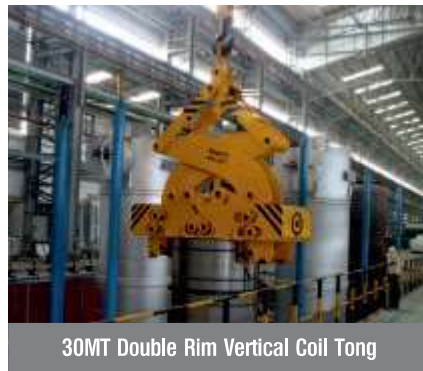

30MT Coil Lifter

5MT Coil Hanger

20MT Parallelogram Coil Lifter

30MT Double Rim Vertical Coil Tong

40MT Single Rim Vertical Coil Tong

Coil Handling Equipment

When it comes to design, quality and purpose, we provide the utmost attention. Every coil handling equipment manufactured and supplied have been of the highest quality with impeccable attention to detail. We have always maintained 100% customer satisfaction to be our soaring priority.

C - Hooks

To lift coils having bore horizontal, self-balanced, easy to operate, purely mechanical, pads made of steel / aluminum / PU, made for Hot & Cold coils, turnstile application, normal / slit coils, supplied with separate / built in parking stand.

Number of Units Manufactured: 1300+ | Lifting Capacity: 0.5 MT - 45 MT | SWL - 1.25 | FoS: 3

Vertical coil tong

To lift coil with bore eye to sky, self balanced, automatic lock, positive gripping, Made for hot & cold

Number of Units Manufactured: 200+ | Lifting Capacity: 5 MT - 45 MT | SWL - 1.25 | FoS: 3

Coil Lifters / Telescopic tongs/ Parallelogram tongs

Electrical / Hydraulic operated, rack and pinion type, reduces aisle space between coils while storage, 300° slewing, cable reeling drum, remote option available, all safety features built in like sensors, limit switches. Contact surface PU / steel / aluminum, foldable pads available, additional hooking arrangement can be provided. Made for hot & cold coils, cable reels & large pipes.

Number of Units Manufactured: 100+ | Lifting Capacity: 5 MT - 45 MT | SWL - 1.25 | FoS: 3

TRANSFER CARS

70MT Transfer Car with Cable Reeling Drum

5MT Battery Operated Tube Transfer Car

40MT Battery Operated Transfer Car

80MT Flat Bed Transfer Car

10MT Transfer Car with Hydraulic Scissor Lift

35MT Transfer Car with Bottom Opening For Coil Car Access

130MT Flat Bed Transfer Car with Underground Bus Bar

20MT Mould Transfer car

Transfer of materials from one place to another. Available in electrical with cable reeling drum or cable drag chain, Battery operated with built in battery, battery charger and controller, with operator cabin, removable attachments on top bed, low bed, variable speed, continuous duty.

Number of Units Manufactured: 200+ | Lifting Capacity: 5 MT - 130 MT | SWL - 1.25 | FoS: 3

SLAB TONGS, PLATE & SHEET LIFTERS

50MT Hot Slab Tong

1200°C 25MT Hot Slab Tong

5MT Sheet Pack Lifter

25MT Stainless Steel Hot Plate Stack Lifter with Trolley

15MT Sheet Pack Lifter

5MT Aluminium Slab Tong

Mechanical / Electrical tongs for cold and hot materials, automatic lock, robust gripping pads, continuous duty.

Number of Units Manufactured: 130+ | Lifting Capacity: 5 MT – 50 MT | SWL – 1.25 | FoS: 3

SPECIAL LIFTING EQUIPMENT

15MT Ingot Tong

18MT Aluminium Ingot Tong

1000°C Graphite Electrode Tong

Triple Rail Clamp

4T Convector/Inner Hood Lifter

Single Rail Clamp

Wooden Log Grab

Stone Grab

Custom built tongs designed and manufactured as per customer's requirement.

Number of Units Manufactured: 200+ | Lifting Capacity: 5 MT - 125 MT | SWL - 1.25 | FoS: 3

SPECIAL LIFTING EQUIPMENT

1200°C 10MT Ring Grab

1200°C 10MT Ring Grab

5MT Wire Rod Coil C-Hook

40MT Roll with Chocks Handling Beam

12MT Graphite Electrode and Tray Handling Lifter

Custom built tongs & beam handling equipment designed and manufactured as per customer's requirement.

Number of Units Manufactured: 30+ | Lifting Capacity: 5 MT - 50 MT | SWL - 1.25 | FoS: 3

Electro-Hydraulic Cactus Grab for Garbage

Electro-Hydraulic Grab Bucket

Electro-Hydraulic Grab for Steel Scrap

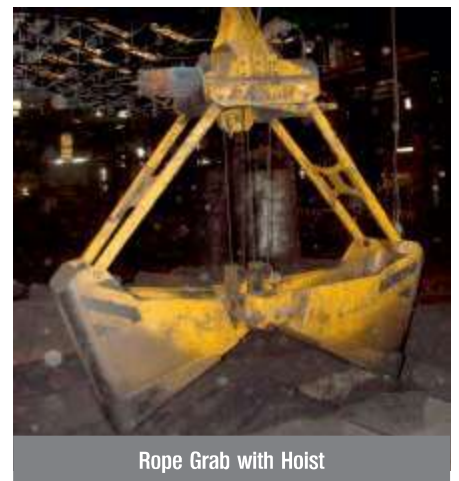

Hydraulic Grab for excavator

Wire Rope Grab Bucket

Mechanical Grabs for Mill Scale

Rope Grab with Hoist

Mechanical / Electro-Mechanical / Hydraulic, wide applications, supplied with cable reeling drum, remote option, continuous duty.

Number of Units Manufactured: 50+ | Lifting Capacity: 0.5M³ - 15M³ | SWL - 1.25 | FoS: 3

SPREADER BEAMS & LADLES

12MT Spreader Beam

185MT Beam for Mill Housing

5MT Adjustable Pallet Lifter

16MT, 12 CBM Charging Bucket

21MT Scrap Bucket

60T Tundish Beam

Spreader beams designed and manufactured as per customer's specification and requirement.

Number of Units Manufactured: 30+ | Lifting Capacity: 5 MT - 185 MT | SWL - 1.25 | FoS: 3

SPECIAL EQUIPMENTS

50MT Lifting Beam for Mould Segment

60MT Link Chain - Tundish Beam

120MT Lifting Beam for Mould Segment

32MT Rotating Beam for Crucible Ladle

25MT Launder Lifting Device

75MT Lifting Device

Ladles and Buckets designed and manufactured as per customer's specification and requirement.

Number of Units Manufactured: 35+ | Lifting Capacity: 5 MT - 30 MT | SWL - 1.25 | FoS: 3

UPENDERS / TILTERS / STACK TURNOVER DEVICE

10MT Sheet Pack Turn-Over Device

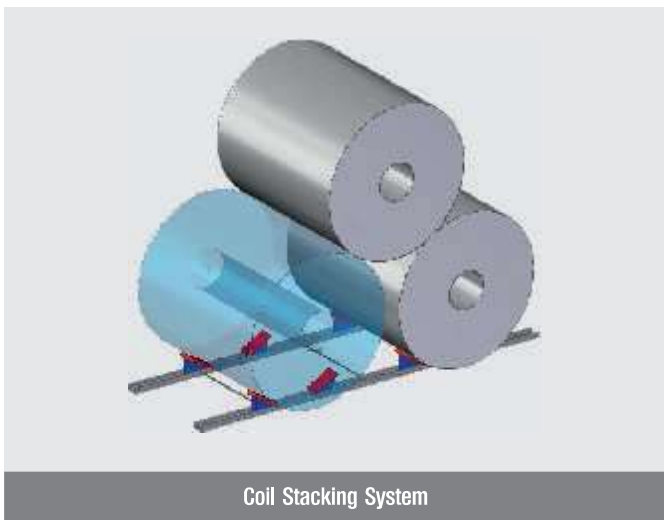

40MT Electro-Hydraulic Up-ENDER with Transfer Trolley

25MT Electro-Mechanical Up-ENDER

5MT Sheet Pack Turn-Over Device

Coil Stacking System

8MT Pallet Turnover Device

Electro-Mechanical & Electro-Hydraulic, tilting devices for various applications.

Number of Units Manufactured: 80+ | Lifting Capacity: 5T - 50T | SWL - 1.25 | FoS: 3

OUR CLIENT LIST

We work closely with our clients to help them successfully execute their most critical needs in material handling equipment. If you would like to speak with any of our clients regarding their experience with Armatic Engineering Private Limited, please contact us and we will be happy to provide an introduction. Below are few of our customers.

OUR CUSTOMER BASE

Australia
Bangladesh
Columbia
Dubai
Egypt
Ethiopia
Georgia
Indonesia
Italy
Kenya

Malaysia
Mexico
Nepal
Nigeria
Oman
Pakistan
Rwanda
Saudi Arabia
